Nathan Minchow

nathan.minchow@outlook.com | nathanminchow.com | Atlanta, GA

OBJECTIVE

Obtain a full-time position in the web development field where I can use my skills in software development and design with a focus on user experience and accessibility.

EDUCATION

University of Nebraska – Lincoln
Bachelor of Science in Computer Science, with High Distinction

EXPERIENCE

Senior Consultant - Software Engineer September 2024 – Present
Slalom | Atlanta, Georgia

- Architected reusable, accessible Web Components to enhance user experience and ensure compliance standards
- Engineered performant, tested backend systems to support scalable architecture, establishing project engineering standards
- Leveraged AI coding tools across development and prototyping, applying hands-on engineering expertise to shape and refine output
- Partnered with clients and stakeholders to gather requirements, estimate work, and provide technical guidance that drove project success

Software Developer (UI and Frontend) June 2019 – September 2024
Mphasis Silverline | Atlanta, Georgia

- Led development teams across the US and overseas for client projects
- Developed accessible, responsive Web Components to meet client needs
- Designed custom user interfaces and design systems in Figma
- Streamlined design to development handoff process by establishing consistent design tokens and guidelines
- Developed, tested, and deployed client solutions in healthcare, financial services, and media industries

Software Engineering Intern June – August 2018
Garmin | Olathe, Kansas

- Designed and developed React applications to streamline localization processes
- Fixed bugs in company's fitness-tracking web solution
- Ensured cross-browser compatibility in existing products
- Conducted UX sessions to gather feedback on new and existing features

Software Development Intern February – June 2017
PaymentSpring (Nelnet) | Lincoln, Nebraska

- Created and maintained an API testing suite using Postman and Newman
- Built sample apps and wrote documentation detailing internal API with Rails and Laravel
- Fixed bugs based on user feedback and developed tests to ensure reliability

CERTIFICATIONS AND HONORS

- Dreamforce Speaker 2022–2023
- Github Copilot Certified
- Certified Salesforce Platform Developer
- Certified Salesforce Javascript Developer
- Raikes Design Studio Platinum Project Member
